

Idylwild, Aug 5, 1952

Changes, changes, changes, throughout the world. Spiritual lights showing in their glory in God's heavens. We are coming through but as yet, have not been able to make our messages known to you earth people.

Your higher knowledges of learning have stopped, for the capacity of your intelligence is not great enough to receive them. Your capabilities are limited in your receiving these greater truths of other worlds - just as your capabilities stop and go no further than your deaths of the physical bodies. You feel that all life is stopped in death. The greater life commences at the point of your physical death. You then go through the processes of the existence of life lived on the different astral planes evolving into the wholeness of all life where you then make choices of going out into other worlds to live as supreme astral beings who contribute their help to the lower worlds of lesser intelligence.

This world is in the process of total destruction, unless the realization of knowing how to chose wisely is determined quickly. Many higher supreme Beings from different worlds of intelligence have come together in council trying through their high lights of intelligence to give to you earth mortals, messages: to discard all fire arms of destruction and work in the greater truths of your spiritual sciences, whereby you could bring those of your earth people who need help to a higher standards of living.

In our higher worlds, we experience nothing but the highest intellectual and spiritual living. All have enough to sustain the bodies, which these higher beings inhabit. We know no disharmony. In some of our worlds we create all that which we desire, for we are known as what you earth mortals would call, the Angels of God.

Many of the lights which have been seen in the heavens by you earth

mortals are the lights of God, for these are the days you have read about in your bible.

#### TASKUE

(After the above message was finished, Anna saw a large scroll of brown paper about three feet long and two feet wide. On the scroll was writing and letters not of our language. It seemed to be interpreted to us that we may understand the meaning of the words.)

-6

Your bridge is long and narrow and on either side are the great waters ready to engulf you in the dangers and death. Beware- take heed - for the wheel of birth incarnating lost souls will ever continue until you take the darness from out your hearts and hear and receive the truths from higher intelligences.

---

Anna, you can feel very complimented. Your experience yesterday brought this message. Muzzz Much of it you missed. They no doubt will give you more information. The message is to "cease working ...

There are many who are in complete confusion in not knowing their own minds. Keep every steady in your thoughts, and the waters of adversity will not touch you.

The march is on. People are going here and there not knowing in their own minds what they want. Thinking they are marching forward, but in reality following evil leaders.

Watch ever your own spiritual lights, that they shall not be extinguished in this confused world.

Sept 9, 1952

Earth man, in your seemingly high intelligence you feel you have achieved the powers of God. Awaken out of your stupidity and realize what you are doing to your world. Awaken before it is too late. You are destroying this earth. It could come suddenly or it could come in time. You, earth man, must change your ways of living, must change your ways of analyzing life. Nothing that you have belongs to you. All belongs to a higher force, a force that is so great it would take you many lives and many worlds before you could conceive or understand the smallest part of it all. We are sending you this message. This is coming from those of a different planet of another world. We have come close, but not close enough. Soon we shall be able to hold our ships steady enough to really give you truth. We shall break through the yoke. The yoke of your atmosphere. At this time we are not able to reach you in the way that we would want to. Our life in comparison to yours is one of grandeur and beauty. We have full appreciation of the higher truths and knowledges, for we have stepped up and out of darkness and into the light of intelligence. We are not Gods, we are mortal men and women living intelligently, living in a clean way. We shall do you no harm unless you take ~~unless you take~~ battle to us. It is highly probably that your scientists in time shall understand the tremendous force in magnetism with your electricity is the force that will teach you many things. Now you are as children. Just children. Your Einstein is great but we have many such as he is. Stop your conceits and start to live.

(tape ran out and didn't get last words)

Aug 5/52

Message. "cease working with Atomic energy, for you are destroying your world. Not only your world, but you interfering with other worlds. The static in your atmosphere prevents ~~us~~<sup>us</sup> from coming nearer. Your ~~stmospheric~~ stmospheric conditions could disintegrate our space ships for they are made of entirely different chemicals than the chemicals which you earth people now use.

We want to help you earth mortals to give to you the realization that there is life lived in far greater abundance and joy than your earth people are experiencing.

You see to us to be much like your own savage tribes. You would kill and destroy.

We would create and live in the joys of the great Christ who came to you in the bodily form of Jesus.

The swiftness of spd w wch r space ships travel should be a warning to you earth mortals. Don't try to destroy us, for in so doing, you will destroy yourselves. You iron and copper combined into one metal will help you in just the ABC's in placing together a metal when infused in magnetic substances would give you a mechanical devise which would be lighter than some of the metals which you now make use of.

A half fraction of iron to a whole fraction of copper thinned to paper waights, would hold the flow of magnetic force and eliminatesome of the fuel you earth mortals now use.

Keep your lands and toil your soils. Feal not that the toil of your efforts are in vain. Be content and happy in the environments you have made for yourselves. Let none destroy your creative effort.

Aug 2 1952  
Thurs. 8-7-52

Dear Mr. Scully:

I have just finished reading your book - "Behind the Flying Saucers," Just as I finished the book, about 5:30 this afternoon, my daughter called me to come out on the porch to look at the Blimp (Navy) and big plane flying over. While watching it, my attention was attracted to a glittering something in the sky - a long way up. It was bright red, yet as it turned and caught the sun it turned silver and back to red again. My daughter called the police station and they gave her a Sy. number in Pasadena. When she reached this number she was told that many calls had come in about this - that no weather balloons or any other kind known, were in the neighborhood today, except the Navy Blimp, and that they were considering it a flying saucer until they heard otherwise.

Yet, tonight, the TV news tells us the Griffith Park Ob. scoffs at all saucer stories - this morning's "Times" tells us it is something the Air Force is experimenting with, and as you said in your book, they seem to be discouraging in every way, the belief in saucers from another planet.

I, as a writer, am tremendously interested in this subject and believe firmly that there is much more to it than we are allowed to know. I am determined to be on the spot either as, or after one of these objects lands. Would you be so kind as to tell me where I might contact a group working toward this end - a group I might be able to work with or for?

Very Sincerely Yours,

Jeane Logan

Dear Mr. Scully:

I feel almost dead certain that I have some darn good news for you and your friends, and if my information proves to be accurate we will hit a certain magazine a whale of punch in the nose for that smear article which a group of men had them write in order for them to cover up their own ignorance in planetary forces or in other words the Physics of Cosmogony and also for other reasons.

You know the work that my group is doing for I told you something about it some time ago. Last week we had another meeting and the forces from the other side of life came in to the meeting and told us that there was another Saucer that had not been found. It is located in the top of a tree in a dense forest. They said that there was some little men in it. I have sent word to the lady who acts as our go-between to get me a pin point of where the saucer is located on a map and have sent her a sketch of the place to pinpoint. When I get this information I will tell you about it and then we will make plans to get the pictures. The place is not too far from Los Angeles-about 200 miles.

The Forces told us why the little men died, why they were here etc. This is an interesting story which I shall relate to you later. They came from both Jupiter and Saturn-brought in by ships that are able to course the magnitudes. The little men were asphyxiated because they could not live in our WET air. Their lungs are adjusted to light or DRY air. Our air is eight parts gas and one part ether while the air on the two major planets is largely sufficed with ether which make the air light and dry. This information must be absolutely secret. Under no circumstances let anyone know who I am. You might write to your friends and give them this information, but not my name just yet. With best wishes

*O. L. D.*

September 2, 1952

Dear Mr. Scully:

I received your letter today and am very thankful for it. I was waiting for it because I wanted to get your comments on the reports I sent with my last letter. As you seem to be satisfied, I will enclose the rest of them now.

I hope these reports will help you in the war with all the Pentagon-paid stooges, "True" and Cahn-like nogoodniks. The True article was like a sweet cookie to all the unbelievers up here and I had quite a Holy War to fight in order to get them back on the right track. We are waiting for your new book to come out, and when it does, I will let my trumpet announce the birth of it in the local papers so everybody knows about it. It looks to me that the last book was not known to very many people in Canada.

Looks like the saucers starts to like the old Earth more and more because after the report from West Palm Beach, Fla. a similar report about a saucer that landed came from Windsor, Ontario. If you did not hear about it, here is the cutting from THE MONTREAL STAR August 28, 1952: Gabriel Durocher said he was walking home about 1:30 a.m. when he saw an object in the field. It was sort of blue all over and glowed like phosphorus. It was disc-shaped, about 30 feet in diameter. The observer ran to within 30 feet of the object and started to yell at it. Then he saw sparks come out of one part of the sides, blue, yellow and red in color. The saucer started spinning and there was a sort of blue mist formed under it and it went straight up and away. Four other persons said they saw something hovering over that area of the city where Durocher said he saw the object. The field, where the object landed, is south of Windsor.

The same report appeared in several other Canadian newspapers but I have not received the Windsor Star clippings yet. There should be more news in them. As soon as I get them I will let you know.

I have received some new reports from Winnipeg and Quebec City but I have not enclosed them in the sheets I am sending now. Besides they don't seem to be very important. I will have them ready for you as soon as I can find more time. The latest cuttings from Australia and Japan will arrive here soon too.

I liked to ask you some questions, but I think you are very busy now, so I will let them stay here for a while. There will be more spare time later, I believe.

I hope to hear from you again and a letter, like the one I just received, gives more strength to fight the crowds of unbelievers or pagans (this is my name for them).

Thanking again for your letter and the copy of the press release, I remain

YUCAIPA, California  
September 3. 1952

Dear Mr. Scully —

I've enjoyed reading your book 2-3 times.

Sorry to read you hadn't seen a saucer.

I hope you have seen one by now — You certainly deserve to.

Just thought I'd add my two cents worth by relating  
as how I saw two saucers in the summer of '47.

— my son and I were working on the roof of our new  
house at Yucaipa, Calif. (70 miles east of L.A.)

I happened to look up — and saw 2 saucers sailing  
very neatly in a southerly direction. Thinking to  
verify this, said to be "mass hysterical vision", I said to  
my ex-G.I. son: Eric, look up in the sky and tell  
me what you see". He looked up, and promptly  
said "Two flying saucers." —

Well, that was that — — — . We did not make  
an issue of it — — — . Bad enough to  
have one mass hysteric in a family — — — . But  
2 mass-hysterics would never do. (SO SHUT TRAPS)

THE SAUCERS WERE SHARPLY OUTLINED AGAINST A DEEP  
BLUE SKY — — — SAILING WITH AN UNDULATING MOTION.  
COLOR: CREAM OR POSSIBLY A SHADE DARKER

This, reasonable enough — — late afternoon sun filtering through  
the famous Los Angeles Smog — and the Kaiser Steel Smelter, not  
too far away.

DO WRITE US ANOTHER BOOK, SCULLY!

Sincerely Yours

M. L. NORSTAD

(No... no relation to the General)

Down with the High Brass!  
News Papers are now FEARLESSLY printing SAUCER news.... Some with the text in extra large type! apparently to defy the  
HURRAY FOR SCULLY!  
BRASS

Newcastle, Wyo. Sep't, 4th, 52.

Dr. Frank. Scully,  
Hollywood, Calif.

Dear Mr. Scully:----- I have just red the article in "True," about the little men landing from Venus & etc----- which is now proved to be the biggest and damdest piece of poppy-cock ever devised by screwy scientists?

I wrote Mr. Newton, imediately after his lecture in Denver at the U. N., and offered to put him right on "Flying Saucers," but it seems that Dr. Ge, had him hypnotized, messerized, tantalized and paralyzed, which is an awful shape for any "Big Shot" to get into!

YOU----- SEE? It so happens that I began visualizing "Fire Balls" (I called them) in Feb. 22, 1922. The first Saucer I seen came out of a hazy sky, made a circle about a mile in diameter, descended on a big meadow, the Disk vanishing without any mechanical law of nature being visable-----then a Lightning Like apparation was seen by me in human shape, as it approached me in an almost blinding sheet of flame--- the snow turning the colors of Green, Purple, Orange and yellow, and lighting up the landscape for over a half mile in diameter. This apparation made hoof tracks in the snow, about three feet apart----- hitting a barbed wire fence the wires smoked as het with a welding torch--- in crossing the creek, tracks were seen in the mud under the ice, and the ice not broken! The apparation passed within 40 feet of me, knocking me unconscious & etc, & etc,-----

Just mentioning the above to prove that "Flying Saucers" are not Metalic----- but spiritual, and operated by "Spiritual Beings," called the Cherubim's, Seraphim's, Angels & etc----- The Disks--- are wings of flight--- strictly under the controle of the occupant, and can materialize, or de-materilize at the will of the Angel, Cherubim, or Seraphim,----- thus these spiritual beings are above all law of gravity, attraction or resistance, and can not be killed----- because man is the only creature created in the image of the Creator, who is subject of Death, including the Devil and his angels who will be destroye d in "Hell Fire," & etc-----

I also wrote the "Borderland Science Research Associates, of Sandiego, Calif., and told them that I absolute know that their concept of "Flying Saucers" from Etheria----- was also Poppy-Cock! These Angelic Spiritual Beings must get a passport from the Almighty, and have his permission to visit this planet, or any other part of the Universe. They don't have to take out "Life Insurance" or fly in a Saucer this is going to crash!

Right now--- I am writing to the "Military Brass," in washington, D. C., telling them some of the things I happen to know about "Fire Balls," and Flying Saucers! Its knocking them cold!

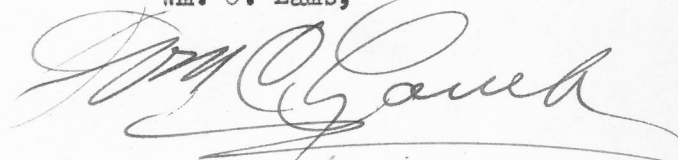

Better write a "Book of Facts," on Flying Saucers!"

Glad to hear from you?

Very Truly Yours,

Box 845---

October 22, 1952

Dear Mr. Scully:

I have not heard from you since several weeks and can imagine how busy you are with the new book. I hope we will see it soon and it will be as good as the first one. Many people still don't like it, but many others keep it on the same shelf where the Bible and dictionaries are kept. I am among the second group.

I have collected several new reports from Australia and am enclosing them with this letter. I hope you can use them and are satisfied with them.

Recently I received a letter from Prof. Adamski, and he promises some great news in the next two months. He told me about the radio contacts made, and the messages he has received. It is about time to show the unbelievers that we have not been chasing "reflections" and "spider webs" all the time. As it has been considerably quite up here during the last two months, many of my 'enemies' have a grin on their faces every time they meet me.

I would be very thankful if you could inform me when the book comes out and where I can get it. I am not the only one up here who wants to get it and as we could not get the last one, I am afraid we might miss this one again.

There are a couple of new Canadian sightings but I cannot enclose them this time as I am very busy with other things. I will send them as soon as I can.

Your press release has been sent to all of my friends and I am very thankful you sent it to me. I really has helped a lot, as it puts the TRUE magazine in a strange light together with that Cahn fellow.

I hope to hear from you someday when you are fininished with your work.

Respectfully yours

*Laimon A. Mitris*

DAILY TELEGRAPH 22/7/1952  
Sydney, Australia

### MYSTERY LIGHT IN NIGHT SKY

People in Sydney and Newcastle last night reported seeing a swift-moving green light in the sky.

Times at which they saw the light varied between just before 8 p.m. to 8.30 p.m.

In Sydney, Albert Thomas, 33, of 21 Regent Street, Redfern, a night watchman at the N.S.W. Railway's tarpaulin factory, Enfield, said he believed that the light was a flying saucer. He said he saw the light when he stepped outside the factory at 7.54 p.m. It was travelling about 400 mph. in a westerly direction over Enfield.

"As soon as I stepped out of the door my arms started to tingle," Mr. Thomas said. "THEN AN ELECTRIC SHOCK RAN THROUGH THE WHOLE OF MY BODY. I looked up and saw the contraption flying overhead."

Mr. R. D. Mitchell, of Kingsgrove Road, Kingsgrove, said he saw a very bright object travelling across the sky at about 8.30 p.m.

"It seemed to be shaped like a ball and at first I thought it might be a meteor, but it was travelling slowly," he said. "It was very bright and had a green glow, with a long and brilliant tail. It appeared to be coming from the west and travelled in a northerly direction towards the horizon."

People in Newcastle and Hexham saw the light a few minutes before 8 p.m. Two T.A.A. truck drivers saw it as they drove from Williamstown airfield to Newcastle. One of them, Clyde Burgess, 26, said: "I saw a green ball of light flash through the sky and fall to earth. It lit up the sky in the west for ten seconds."

A hire-car driver, Mr. Norman Swan, who was returning from Williamstown, said: "It was like a Verrey light, but it was much bigger and brighter and travelled very fast."

The Government Astronomer in Sydney (Mr. H. W. Wood) said last night the appearance and behavior of the object were not inconsistent with its having been a meteor. The greenish color and brilliant tail were characteristic of meteors he said.

THEXHBKREKXXX

THE SUNDAY TELEGRAPH 27/7/1952  
Sydney, Australia

### DARWIN SAUCER "BRIGHT GREEN"

Many residents of Darwin saw a strange object "like a flying saucer" flash across the sky tonight.

They said it moved across the sky at "terrific speed". Residents who have seen shooting stars or comets agree that the object was much more brilliant. It was bright green in color, and appeared to change to red and gold as it gained momentum and flashed away in the distance.

The chief pilot of a Qantas Constellation, Capt. J. Murray, of Sydney, said he also saw the object. He said he was taxi-ing the Constellation towards the hangar at Darwin Airport when he saw the object flashing across the sky. He said: "It certainly was not a shooting star or a comet. You can quote me that. I believe in flying saucers, and I think this may have been one."

The flash was not a natural phenomenon because of its horizontal flight, its brilliance, and unusual green color. "The object was quite unlike any shooting star or comet I have ever seen," he said.

He added that other members of the plane's crew did not see the flash because they were not facing that way or were sitting back in the cabin.

(Darwin saucer...)

Darwin residents, including a police constable, said they saw a brilliant green light flashing from east to west some distance south of the town at terrific speed.

---

THE SUNDAY TELEGRAPH 3/8/1952

Sydney, Australia

The Tokio newspaper Yomiuri says that flying saucers appeared over Japanese territory for the first time last night.

Residents of the western suburbs of Tokio saw various lights moving in the sky.

One person described one light as "like a lump of the moon and travelling very fast."

Officials at the Central Weather Bureau reported that they saw strange lights which could not have been fireworks or shooting stars.

---

THE SUNDAY HERALD July 27, 1952 tells about a saucer that was seen over Wellington, N.S.W. Australia.

Last Monday night (July 21, 1952) many people saw a bright object moving in the sky north-east of Wellington, N.S.W. Some said it looked like "a heart-shaped flying saucer". Sydney scientists have no doubt it was a meteor and hope to find where it fell.

Further they give different old U.S.A. reports including Mantell's saucer, Gorman's report, Lubbock, Tex. lights, Sioux City "winged cigar", Chiles and Whitted ship and others.

My correspondent did not send me the original Wellington report.

---

Oct. 22/1952

L. G. Whitby

DAILY TELEGRAPH Sydney, Australia

(I don't know the date of this report because the clipping arrived here without it. My correspondent says that it is from end of August. I feel quite sure that the date of the sighting is 24th of August but will try to find out in the near future)

# FLYING SAUCERS SEEN ABOVE TWO SUBURBS.

People in two Sydney suburbs saw "flying saucers" in the sky yesterday.

The suburbs are Naremburn and Northbridge. Mr. Leo Haylen, of Adolphus Street Naremburn, and his son Brian, 14, saw the "saucers" from the gardens of their home at 10 a.m. Mr. Haylen said: "Brian and I watched them for 3½ to 4 minutes. The first saucer had the form of a white circle or disc. When we first saw it, it was due west of us and travelling north-west at a great height.

It seemed to be travelling about the speed of a fast aircraft and rising. Our attention first was drawn to the saucer because of a noise like a plane, but when we saw it the noise had stopped. The object we saw was distinct. Behind it was a similar disc or circle, much less distinct. Both objects disappeared to the north-west. I would say they were the size of an average aircraft. The first object glistened when the sun caught it."

A Northbridge man said he and his two young daughters, 11 and 9, saw a strange object in the sky yesterday morning. The man said he was in his kitchen when his children called him about 10 a.m.: "Daddy, come and look at the flying saucer." The man went into the garden and saw a large whitish object in the western sky. He said: "I am not an expert on heights or speeds, but I can make a rough estimate that the object seemed about 11 000 feet up and travelling more than 600 mph. I base the speed estimate on the jets I have seen from my house. The object was roughly egg-shaped, whitish in color, and made no sound that any of us could hear. It was not an ~~airplane~~ aeroplane or an optical illusion like a "spot in the sky". I have often seen both these. The children and I watched the thing travel from south to north, then suddenly turn left and disappear."

The man gave the Daily Telegraph his name and phone number, but did not want his name published.

Mr. George Clark, of Burra Road, Artarmon, said he saw two Vampire jet fighter planes flying high north-west of Artarmon between 10 and 10.15 a.m. yesterday. Mr. Clark served in an anti-aircraft unit in the war.

R.A.A.F. headquarters last night said that Vampires were on training flight yesterday from Williamstown, north of Newcastle.

The Northbridge observer said: "The objects I saw definitely were not Vampire aircraft - nor any other kind of aircraft."

DAILY TELEGRAPH, Sydney, Australia

September 1, 1952

## THREE PEOPLE SEE "SAUCER" OVER SYDNEY

Two young women and a man said they saw a flying saucer over Sydney last night.

All three said the saucer travelled over the city in a southerly direction. The young women are Miss Joan Harrison, 21, shop assistant, of Bligh Street, ~~Epping~~ Epping, and Miss Marlene Johnson, 19, receptionist of Clarence Road, Rose Bay.

They were standing together on the steps of Mark Foy's, Liverpool Street. Miss Harrison said: "It was a long oval thing, sort of flat, and it had a glow about it. It made no noise, and passed over Foy's in a southerly direction about 9.50 p.m. It was ~~very high~~ not very high - about as high as the A.W.A. tower.

(Three people.....)

Miss Johnson said:" It ~~was~~ had an oval shape and glowed yellow-green with mauve tints. We watched it for perhaps five seconds before it disappeared behind the buildings. A lot of people in the streets must have seen it."

The man, Mr. Herbert Barker, accountant, of Holdsworth Avenue, Elizabeth Bay, said he saw the object about 9.25 p.m. He said:"I was driving my car along Elizabeth Bay Road when I saw this oval shape-a yellow glow with purple edges and a dark centre. It seemed about 10 feet across. It was travelling south. I watched it fly toward the sea and out of sight."

.....

from THE UPPER STORY of

## FRANK SCULLY'S BEDSIDE MANOR

---

2071 GRACE AVENUE  
HOLLYWOOD, CALIFORNIA

October 27, 1952

Dear Mr. Mitris:-

Thank you so much for your letter to Mr. Scully and more reports from Australia. You have been most wonderful in your letters and research, and we are most grateful.

As for the coming book. There is some delay. First, Mr. Scully has again been sick. Then that Cahn of the True article must have felt he went out on a limb with the article in case he was sued, so he started advertising for anyone who had had dealings with Mr. Newton, and got some disgruntled person, and together they must have cooked up some rousting. Anyway, that's what it looks like at this moment. Why a person would want to make a career out of trying to get some other person in trouble, and even seeing evil where there isn't, is something that I just can't understand. But it seems a wiser thing to wait till the smoke clears before going on. So far, evidence is piling up that the book was so definitely right. Do I understand you correctly that you still have not been able to get books of "Behind The Flying Saucers" in Quebec? It seems strange that your bookstores couldn't get them through Henry Holt publishers, at 383 Madison Ave, New York. The pocket edition is put out by Popular Library, 10 East 40th street, New York, and cost a quarter a copy.

Prof. Adamski showed us some terrific pictures last time we saw him. He seems to have gotten some later information of great import. And still the saucers carry on, let themselves be photographed, let people squabble and denounce each other because of them, but nobody can prove they just aren't.

With all best wishes,

Yours sincerely,

Rouyn, Quebec  
November 14, 1952

Dear Mr. Scully:

I have collected some new saucer reports and am enclosing them with this letter. You may have some of them but I am sending them just to be sure you don't miss them.

The France report of a "cigar-shaped" object in the company of 16 saucers seems to be one of the most important reports since quite a while. As the objects were seen for 10 minutes and by over a hundred persons, people like Dr. Menzel with their reflection and mirage theories, will have to keep quiet for some time. There is a similarity between Prof. Adamski's photos and this French "cigar".

About a week ago I received a couple of photostats of the pictures taken by a Frenchman last summer in France. The photos are not too clear, but they remind me the saucer that landed in the Soviet Zone of Germany this year. If you have seen these French pictures, you will notice that there is some kind of dark spot on the bottom of the saucer and this spot makes me think that it is caused by the conning tower on the German saucer. It is possible that a hollow is formed when the tower is on the upper side of the saucer. The rim of the French saucer looks like the one of the German "pan without a handle": it is glowing while in flight.

There have been 5 saucers over this city not so long ago, but have not been able to find time to translate the report in English. The report appeared in the local French newspaper. Will send you this report with my next letter. Several persons saw the round, flat objects with turning rims during daytime.

Hoping my reports will be useful to you, I remain

Respectfully yours

*P.S. I have received several U.S.A. reports but I don't enclose them because you probably received them from somebody else. L.S.M.*

The Alliston Herald - August 28, 1952 (Alliston, Ontario)

#### FLYING CONES CHEAPER BY DOZEN?

Flying saucers! Why, they are things of the past! At least, if what two Allistonians saw on Tuesday is any indication. These two youngsters, together with several bystanders were at Everett at the time and report having seen silver and black cone-shaped object, which, for about twenty minutes kept ascending and descending.

Last week several persons reported having seen about a dozen of these objects above Everett.

Of course, we can't vouch for the "cone" story but we are sure the young men in question were quite sober at the time. Perhaps if they had seen the same thing at Loretto it would have been a different story.....

The Montreal Star - Tuesday, October 28, 1952

#### All Flat and Shiny FLYING SAUCERS "APPEAR" AGAIN.

Flying saucers are back, claims a Rosemount resident. He called the Star today to report seeing five of them at 7.45 a.m. on his way to work. All flat and shiny, they were. Just like jet planes. He said they were going from northwest to southeast and not making a sound.

"Could they have been a jet formation?" he was asked.

"Well, I don't know" he said "They were about 10 000 or 15 000 feet high".

"How accurate are you at judging the height?" he was asked. "Have you ever flown?"

"No, but I can judge height" he answered. "I had a brother-in-law in the Air Force."

St. Hubert reported that none of its aircraft were up at that time. Planes may have been airborne from Ottawa, but this could not be immediately checked.

#### Noise, Flash Terrifies Town. Phenomenon Occurs Along North Shore.

A tremendous noise and a bright flash visible 39 miles away was reported today to have terrified residents Les Escoumains, on the north shore of the St. Lawrence River, 150 miles east of Quebec City. The phenomenon, which occurred at 5.10 p.m. last Friday, was seen by many residents of the town. Men loading trucks at a lumber camp of the Consolidated Paper Company were reported to have been thrown from the vehicles.

Residents of the area speculated whether the noise and the light might have been caused by an earthquake, a falling meteorite or an aircraft travelling at the speed of sound.

Mayor Raoul Savard of Sacre Coeur, 35 miles from Les Escoumains, said the noise was "a bit different from that of a dynamite explosion".

"I felt the earth shake several seconds after the blast" he said.

Mr. Savard quoted several residents as saying they saw "a ball of fire" race ~~xx~~ under overcast skies just before the loud noise.

"It was about a foot in diameter and left a trail of smoke behind it. It gave off a bright light."

Mr. Savard said inquiries showed the explosion could not have come from any construction work in the area. He did not think the "ball of fire" could have been a meteorite. Nobody saw it fall.

---

#### Astronomer Upholds Meteorite Theory.

At Ottawa, the Dominion astronomer Dr. C. S. Beals, said he had received no direct report on the occurrence, but said it could have been a meteorite. The previous explosion at Montreal was believed to have been a meteorite and Fridays blast at Les Escoumains "might be a big meteorite".

Dr. Beals said the Dominion Observatory would like to receive any information about the phenomenon.

#### SPARK "CART WHEELS" REPORTED IN KOREA.

Pacific Stars and Stripes reported today that U.S. troops saw a half-dozen mysterious, spark-throwing "cart-wheels" over the western Korean front, Friday night. "I don't believe they were flares," the service newspaper quoted one observer, Cpl. John A. Lajoie. "What they did look like were these revolving cart wheels you see in the Fourth of July." They were described as 18 inches in diameter, moving in a 15-foot circle

#### ITALIAN CLAIMS FLYING SAUCER PHOTO SNAPPED.

Milan, Oct. 23 (Reuters) - A 29-year-old Italian draftsman Gian Pietro Monguzzi, told Italian reporters today he had photographed a flying saucer and its pilot.

He claimed the saucer landed on a glacier in the Italian Alps some two months ago. Monguzzi said he was climbing with his wife at the time in the Bernina Alpine group.

"The flying saucer touched for a few minutes and a figure of human shape wearing a sort of diving suit got out, and walked around the saucer as inspecting it," Monguzzi said.

"The figure then reentered the saucer and it took off without a sound at breath-taking speed. It disappeared in the direction of Switzerland." Monguzzi said he has already sold his photographs to a French magazine.

### 16 Flying Saucers Spotted in France

Gaillac, France Oct. 28 (Reuters) - This south of France village claimed something of a flying saucer record today.

More than 100 residents saw 16 saucers flying in formation around a larger "flying cigar" yesterday.

The saucers were "circular with a raised part in the center, giving out a bluish glow from the edges as they revolved."

The "flying cigar" in the middle of the formation "gave off whitish filaments like glass wool"

One report said the "glass wool" floated down on to tree tops but disintegrated before it could be taken to a laboratory for analysis.

The report said the saucers approached from the southeast, cruised over Gaillac, 30 miles northeast of Toulouse, for about 10 minutes and disappeared in single file towards the northwest.

November 21, 1952

Dear Alice:

Just dashing this off because the news is too good to keep and if I wait until Prof gets time to dictate you won't get it until next month. Things are surely piling upon him high and fast.

First, Jerry Baker is here and will be indefinitely. He can develop into a fine assistant to Prof and at present that is his desire. They will be coming up to L. A., but we have no idea when - perhaps not until after the first of the year, or maybe any time. God alone knows the answer as to when.

Next - and this is IT. Prof met a space ship yesterday. It landed, or rather hovered just above the ground as if posing for him to take pictures of it. He took six. Then one man got out of the ship (saucer) about 20 ft. in diameter and walked over to Prof. They talked for a good half hour or more, then both went over to the ship, the man returned into it and it took off. The man left deep footprints in the ground and we have castes made of them. They have symbols on them. *took one with them*

The ship was from Venus. The man couldn't talk our language too well, but their conversation, with the aid of mental telepathy, was quite wonderful.

*Saw*  
We also the mother ship, but that one didn't land. It acted as a decoy for our ships that rushed into the air and make themselves generally an interference.

This contact had been worked out and word sent to Prof that if all went right, it would be made. That is why and how Alice, Prof. and I went to the desert yesterday. Also present were four people from Arizona. A Dr. and Mrs. Williamson and a Mr. & Mrs. Bailey. We all saw the mother ship as it moved over us and later Dr. Williamson, Mr. Bailey and I saw the saucer as it hovered and also saw the man and Prof talking, then saw the saucer take off. We saw this through binoculars so details were not visible.

There is so much to be told to those like you who are interested and working in this line, but much that was told to Prof that still can't be given to the general public at this time. However, I'm still floating up there in the clouds and my fingers aren't functioning from habit so my mistakes are far too frequent for much letter writing today. You are the only ones getting a letter from here today, but we do want you to know without delay. More later, or if you can find a way to get down, that would be wonderful.

Love,

*Lucy*

Hollywood Calif

Joshua Tree, Calif

Wed Aug 26 1953

Dear Gene,

Tuesday morning at 2. 00 A M we had a saucer here.

As you know we sleep outside. I awoke with a feeling that was very strange yet very calm. It seemed that I must have been sitting up in bed before I became fully awake, because my first look was at the Rock which was behind me. As I turned my head around, there was a man standing behind about 8 feet from me at the foot of our bed. Without stopping to think, the words, "Welcome, Stranger, what do you want?" came out of my mouth. Get this! These were the only words I spoke during our 5 or 6 minute conversation.

Then he said, "You people should remove all metal from your clothing and stop carrying metallic things in your pockets. Make up a pouch to carry your things in. Sew your pockets up."

Then this thought went through my ~~head~~ mind. (Typically human and argumentative. "We,, Jesus Christ we've got brains enough to take things out of our pockets if it becomes necessary." Before I could say it he replied, "You people forget too easily and when one of our ships land to pick you up you will (or may) not have time to think of all these things, then all you have to do is drop the pouch. "

He almost laughed when I had the above thought.

Eva hadn't awakened when I did, so all this time I was pinching her under the covers trying to wake her up so she could see him and the ship. Every time I pinched her he would spread a big smile across his face like he knew what I was doing. All the time we were carrying on this thought word conversation, he was turning a small brown object over in his hands. It was about the size of a short cigarette package with all corners rounded. Suddenly he opened one end and the opposite end and pointed it at the mountain and a beam of light came out of it about the size of a lead in a pencil and went to the rocks. He didn't explain this gadget and as suddenly he refolded it and kept it in his hand.

Eva never did wake up until it was all over and I had smoked a cigarette. Then she asked me if I had smoked and I said, Yes I just threw it away."

In the morning she never recalled waking or saying anything to me. I think they had her under some kind of control to keep her sleeping because I pinched her hard, and she always awakens easy.
